

OUR VISION

A more just and equitable world, where community-led organizations have the power and resources to create positive social change.

OUR MISSION

To create strong connections, promote collaborative action, and mobilize resources for positive social change.

ABOUT US

GoPhilanthropic Foundation is a community of partners, donors, and grassroots organizations all working together to make a long-term, sustainable impact in the human rights, education, and health sectors. All of our partners are community-based and tackle major global issues such as child labor, human trafficking, gender bias, FGM, and a lack of access to health care and education.

HOW WE WORK:

- **IDENTIFY** small yet highly effective grassroots and community-led programs.
- **INVEST** in programs through funding and development of skills.
- **SCALE**, build networks, and foster cross-learning to help programs to spread their valuable knowledge.

WHAT WE OFFER OUR SUPPORTERS

- Dynamic, interpersonal partnerships with **carefully vetted**, lesser known but brave grassroots and community-based organizations.
- **Transparent**, consistent and **personal communication** of impact, successes and challenges from the field.
- Opportunities to **travel** and personally **learn** from those on the front-lines addressing complex global issues.
- Opportunities to **network** and **collaborate** with like-minded individuals and humanitarians from around the world.
