ABOUT US

PEPY Empowering Youth (PEPY) is a Cambodian LINGO (local NGO) and nonprofit providing personal and professional development to youth ages 14-35.

Our mission is to work with young people to connect them to the skills, opportunities, and inspirations needed to reach their potential. **Our core values** are Transparency, Collaboration, Accountability, and Learning and Sharing.

PEPY's programs currently operate in Kralanh, Varin, Siem Reap, Kampong Leaeng, and Taing Kork Districts.

OUR TOURS

We welcome you to join us for an individual, group, or school tour! Our tours are filled with engaging activities that are available as part of a hotel or tour agency package or you can choose to connect with us directly to organize a visit.

Office Visits

Meet our team and learn about our work and the impact that our youth are making in our community. You are welcome to visit our YISI Office and / or our Headquarters.

Meet the Class!

Take part in an office tour and then join in a cultural activity with our students. The tour will include a meet and greet and then a dance or game activity.

Learning Exchanges

Are you interested in a school or teacher exchange? We offer multi-day and half-day packages to collaborate on projects and activities in our Learning Center.

OUR WORK

Our programs start in our partner high schools where Grade 10-12 students receive the tools to dream BIG and identify their career paths in our elective class and networking events. We also connect youth to scholarships including our own comprehensive higher education scholarship that covers living costs, tuition, and more. In Siem Reap City, our vocational training program and our business and entrepreneurship development program provide economic empowerment to young people.
